Measurable Skill Gains	Negotiated Goals	Negotiated Goals
Adult	Baseline	Baseline
Dislocated Worker	Baseline	Baseline
Youth	Baseline	Baseline
Effectiveness in Serving Employers	Negotiated Goals	Negotiated Goals
Adult	Baseline	Baseline
Dislocated Worker	Baseline	Baseline
Youth	Baseline	Baseline

Baseline Indicator Explanation: Each State submitting a Unified or Combined Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The State is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education on state adjusted levels of performance for the indicators for each of the first two years of the plan.

To effect an orderly transition to the performance accountability system in Section 116 of the WIOA, the Departments will use the transition authority under WIOA sec. 503(a) to designate certain primary indicators of performance as “baseline” indicators in the first plan submission. A “baseline” indicator is one for which States will not propose an expected level of performance in the plan submission and will not come to agreement with the Departments on adjusted levels of performance. “Baseline” indicators will not be used in the end of the year performance calculations and will not be used to determine failure to achieve adjusted levels of performance for purposes of sanctions. The selection of primary indicators for the designation as a baseline indicator is made based on the likelihood of a state having adequate data on which to make a reasonable determination of an expected level of performance and such a designation will vary across core programs.
