D. Travis Brooks, the Program Manager for the MLK Interchanges study (061555), presented the preliminary concepts and cost estimates of this study.

E. MPO Report/Announcements
1. Emmily mentioned that the first attempt to prioritize the draft 2045 MTP Projects was conducted by the Technical Advisory Committee (TAC) on October 1st, and that the draft list was included in the agenda packet. However, due to time, the Policy Board was not able to review the list. Thus, she mentioned that she would keep the discussion going via email.

2. Emmily mentioned that in regard to the 2045 MTP development process, the LPA’s and ARDOT should notify her about their decisions regarding the MLK study by May/mid-June 2020; in order to allow for sufficient time to release the MTP for a 21-day public comment period in July; address the MTP’s public comments and release the document again for 14-days public comment period, if significant changes occur; address the comments, and have the MTP ready for adoption by the Policy Board in September 2020.

3. Emmily also mentioned that although the 2019 calendar has December TAC and Policy Board meeting dates, these are there just in case there is a need to meet. However, she has no plans on having the TAC or the Policy Board meet in December. She mentioned that the next TAC and Policy Board meetings are scheduled for February 2020. Therefore, she will convey any information before then via email, and voting can take place via email as well, if need be.

F. ARDOT Report/Announcements
